CONTENTS OF VOLUME 49

Aitken, J. R. See Dean, Paul, 11.
Bailey, C. B. Reduced formation of siliceous urinary calculi in cattle given excess water, 189.
Bailey, C. B. and **Hironaka, R.** Growth and carcass characteristics of bulls, steers, and partial castrates kept on range for the first year of life and then fattened, 37.
Bayley, H. S. See Summers, J. D., 97.
Bayley, H. S., Cho, C. Y. and **Summers, J. D.** Growth and digestibility studies to evaluate rapeseed meal as a protein supplement for swine, 367.
Bell, J. M. See Troelsen, J. E., 119.
Bouchard, R. and **Brisson, G. J.** Changes in protein fractions of ewe's milk throughout lactation, 143.
Bowland, J. P. See Elliot, J. I., 397.
Brisson, G. J. See Bouchard, R., 143 and Saheb, J. L., 359.
Buckland, R. B. Fumarase activity of frozen bull spermatozoa in relation to their fertilizing ability, 125.
Effect of cold stressing chicken embryos on hatchability and post-hatching body weight, 132.
Carman, G. M. See Jordan, W. A., 343.
Chakrabartty, S. K. See Milligan, L. P., 135.
Cheeke, P. R. and **Oldfield, J. E.** Influence of selenium on the absorption, excretion and plasma level of tritium-labelled vitamin E in the rat, 169.
In vitro inhibition of succinate and pyruvate oxidation by ethanolic extracts of grasses, legumes and dystrophogenic forages, 402.
Cho, C. Y. See Bayley, H. S., 367.
Combs, W. See Mukhoty, H., 197.
Comeau, J. E. See Jordan, W. A., 127.
Dalrymple, J. R. and **Macpherson, J. W.** Low temperature preservation of boar spermatozoa, 45.
Dean, Paul, Lamoreux, W. F., Aitken, J. R. and **Proudfoot, F. G.** Flavor associated with fish meal in diets fed to broiler chickens, 11.
Doornenbal, H. and **Frankham, R.** Growth, feed efficiency and gross chemical composition in market-weight pigs as influenced by a combination of synthetic sex hormones and tylosin, 77.
Elliot, J. I. and **Bowland, J. P.** Correlation of melting point with the sum of the unsaturated fatty acids in samples of porcine depot fat, 397.
Fisher, L. J. and **Logan, V. S.** Comparison of corn and oat based concentrates for lactating dairy cows, 85.
Frankham, R. See Doornenbal, H., 77.
Fredeen, H. T. Breed structure and population dynamics of the Canadian Yorkshire pig, 291.
Fredeen, H. T., Hickman, C. G. and **Stothart, J. G.** Inbreeding and relationship for three breeds of pigs in Canada, 275.
Fredeen, H. T. and **Stothart, J. G.** Development of a new breed of pigs: the Lacombe. I. Foundation and developmental procedures, 237.
Development of a new breed of pigs: the Lacombe. II. Evaluation, 247.
Development of a new breed of pigs: the Lacombe. III. Public distribution and propagation, 263.
Friars, G. W., Mukherjee, T. K. and **Raktoe, B. L.** Male and female components of reproductive performance in turkeys, 17.
Friend, D. W. and **MacIntyre, T. M.** Metabolism cage design for male and female pigs, 130.
Digestibility of rye and its value in pelleted rations for pigs, 375.
Gardiner, E. E. Relationship between inorganic phosphorus and inorganic calcium in chicken blood plasma, 193.
Gorrill, A. D. L. and **Nicholson, J. W. G.** Effect of added bulk on growth, nutrient utilization, digestive system and diarrhea in calves fed milk replacer, 305.
Growth, digestibility and nitrogen retention by calves fed milk replacers containing milk and soybean proteins, supplemented with methionine, 315.
Gravir, K. See Hickman, C. G., 151.
Grieve, C. M. See Hoogendoorn, A. L., 383.
Groves, T. D. D. See Mears, G. J., 389 and Mukhoty, H., 197.
Hawes, R. O. See Hoogendoorn, M. P., 331.
Hickman, C. G. See Fredeen, H. T., 275.
Hickman, C. G., Lee, A. J. and **Gravir, K.** Genotype × season × method interaction in evaluating dairy sires from progeny records, 151.
Hill, Pamela. See Larmond, Elizabeth, 51.

Hironaka, R. Starter rations for beef cattle in feedlots, 181.
See also Bailey, C. B., 37.
Hironaka, R. and **Peters, H. F.** Energy requirements for wintering mature pregnant beef cows, 323.
Hoogendoorn, A. L. and **Grieve, C. M.** Chromic oxide in digestibility studies with lactating dairy cows, 383.
Hoogendoorn, M. P., Moxley, J. E., Hawes, R. O. and **MacRae, H. F.** Separation and gene frequencies of blood serum transferrin, casein and beta-lactoglobulin loci of dairy cattle and their effects on certain production traits, 331.
Howell, W. E. See Tripathi, V. N., 113 and 223.
Hunt, J. R. See Voisey, Peter W., 157.
Ibrahim, E. A., Ingalls, J. R. and **Phillips, G. D.** Effect of continuous feeding on the composition of rumen digesta, 399.
Ingalls, J. R. See Ibrahim, E. A., 399.
James, Paul E. See Voisey, Peter W., 157.
Jennings, W. R. See Voisey, Peter W., 235.
Jordan, W. A., Lister, E. E., Carman, G. M., Miles, V. and **Logan, V. S.** Comparative performance of Holstein, Shorthorn × Holstein and Shorthorn calves for veal, 343.
Jordan, W. A., Lister, E. E. and **Comeau, J. E.** Outdoor versus indoor wintering of fall calving beef cows and their calves, 127.
Kay, W. C. See Milligan, L. P., 135.
Kitts, W. D. See Ross, J. P., 91.
Lamoreux, W. F. See Dean, Paul, 11.
Lamoreux, W. F. and **Proudfoot, F. G.** Effects on body weight and feed conversion of broiler chickens from three commercial crosses reared with the sexes separated or intermingled, 23.
Larmond, Elizabeth, Petrasovits, A. and **Hill, Pamela.** Application of multiple paired comparisons in studying the effect of aging and finish on beef tenderness, 51.
Lee, A. J. See Hickman, C. G., 151.
Lister, E. E. See Jordan, W. A., 127 and 343.
Logan, V. S. See Fisher, L. J., 85 and Jordan, W. A., 343.
MacIntyre, T. M. See Friend, D. W., 130 and 375.
Macpherson, J. W. See Dalrymple, J. R., 45.
MacRae, H. F. See Hoogendoorn, M. P., 331.
Martin, A. H. The problem of sex taint in pork in relation to the growth and carcass characteristics of boars and barrows: a review, 1.
McArthur, J. M. and **Miltimore, J. E.** Bloat investigations. The pH of rumen contents and its role in legume bloat, 59.
Bloat investigations. Studies on soluble proteins and nucleic acids in bloating and non-bloating forages, 69.
McDonald, Bruce E. See Parris, E. C. Clyde, 215.
Mears, G. J. and **Groves, T. D. D.** Some physiological responses of sheep to short-term cold exposure, 389.
Miles, V. See Jordan, W. A., 343.
Milligan, L. P., Robblee, A. R., Wood, J. C., Kay, W. C. and **Chakrabartty, S. K.** A new non-protein nitrogen source for ruminants, 135.
Miltimore, J. E. See McArthur, J. M., 59 and 69.
Moran, E. T. Jr. See Summers, J. D., 105.
Moxley, J. E. See Hoogendoorn, M. P., 331.
Mukherjee, T. K. See Friars, G. W., 17.
Mukhoty, H., Groves, T. D. D. and **Combs, W.** Growth-dependent changes in blood urea nitrogen levels in Lincoln and Southdown lambs, 197.
Nagai, Jiro. Preweaning growth of young and the weight of mammary glands of mother mice, 349.
Neudoerffer, T. S. and **Smith, R. E.** Enzymic degradation of wheat bran to improve its nutritional value for monogastrics, 205.
Nicholson, J. W. G. See Gorrill, A. D. L., 305 and 315.
Oldfield, J. E. See Cheeke, P. R., 169 and 402.
Parris, E. C. Clyde and **McDonald, Bruce E.** Effect of dietary protein source on copper toxicity in early-weaned pigs, 215.
Pepper, W. F. See Summers, J. D., 97 and 105.
Peters, H. F. See Hironaka, R., 323.
Petrasovits, A. See Larmond, Elizabeth, 51.
Phillips, G. D. See Ibrahim, E. A., 399.
Proudfoot, F. G. Effect of packing orientation, daily positional change and vibration on the hatchability of chicken eggs stored up to four weeks, 29.
See also Dean, Paul, 11 and Lamoreux, W. F., 23.
Raktoe, B. L. See Friars, G. W., 17.

Robblee, A. R. See Milligan, L. P., 135.
Robertson, G. D. See Voisey, Peter W., 231.
Ross, J. P. and **Kitts, W. D.** Concentration of certain blood metabolites in obese pregnant and non-pregant ewes, 91.
Saheb, J. L. and **Brisson, G. J.** Some observations on effects of phenylhydrazine on blood hemoglobin, total red cell volume and color of skeletal muscles in veal calves, 359.
Slinger, S. J. See Summers, J. D., 97.
Smith, R. E. See Neudoerffer, T. S., 205.
Stothart, J. G. See Fredeen, H. T., 237, 247, 263 and 275.
Summers, J. D. See Bayley, H. S., 367.
Summers, J. D., Bayley, H. S., Pepper, W. F. and **Slinger, S. J.** The value of rapeseed meal for growing pullets and laying hens, 97.
Summers, J. D., Moran, E. T. Jr. and **Pepper, W. F.** Nitrogen digestibility of various selected wheat fractions, 105.
Tripathi, V. N. and **Howell, W. E.** Effects of group-fed dihydroxyprogesterone acetophenide in combination with an injection of estradiol valerate, and melengestrol acetate on estrus synchronization and conception in beef heifers, 113.
Association of serum hemopexin, transferrin, prealbumin and albumin$_1$ types with reproductive traits of Yorkshire and Lacombe breeds of pigs, 223.
Troelsen, J. E. and **Bell, J. M.** Relationship between *in vitro* digestibility and fineness of substrate grind as an indicator of voluntary intake of hay by sheep, 119.
Voisey, Peter W., Hunt, J. R. and **James, Paul E.** A comparison of the beta backscatter and quasi-static compression methods of measuring eggshell strength, 157.
Voisey, Peter W. and **Jennings, W. R.** An instrument for measuring backfat in hog carcasses, 235.
Voisey, Peter W. and **Robertson, G. D.** Errors associated with an eggshell strength tester, 231.
Wood, J. C. See Milligan, L. P., 135.
